

EBPV TBC

This scanning electron micrograph shows a cross-section of a material with three distinct layers. The top layer, labeled 'EBPV TBC', is a thick, dark, and highly textured region. The middle layer, labeled 'RIVESTIMENTO DI LEGAME', is a thin, smooth, and light-colored band. The bottom layer, labeled 'SUPERLEGA', is a thick, smooth, and light-colored region. A scale bar in the bottom right corner indicates a length of 50 μm.

RIVESTIMENTO DI LEGAME

SUPERLEGA
